The past 2 weeks have been challenging for all of us. We hope that all of you in your family and at work have been safe and adapting well to all the changes brought about by COVID-19. We wish that you remain safe and strong in this fight against COVID-19.

We would like to update everyone, in case these recommendations and bulletins did not reach you. We have published at least 6 bulletins highlighting essential information for your practice, management and for patient's information as well on our facebook page, disseminated through our Viber groups, and also uploaded on the PCS website. We hope that these will help you navigate your clinical work during this challenging times. We will continue to review and update our recommendations as the situation rapidly evolves and keep changing.

Please do collaborate with your institutions to deliver optimised care for our patients. Communication is key.

Keep Well and Stay Safe!

Socially distant,

Catherine Teh, MD, FPCS, FRCS(Ed)
President
